

The 100 Marriage Assessment - Series 1

Couple Discussion Guide

Michael Johnson & Sophia Williams

Completed on 4/23/2025

Thank you for completing The 100 Marriage Assessment - Series 1. This guide provides insights into your perspectives on marriage and how this conversation may strengthen your relationship.

Understanding Your Compatibility Score:

Your compatibility score reflects the alignment of your perspectives across the assessment sections. A higher score indicates greater similarity in your views, while a lower score highlights areas where your expectations differ. This is not a measure of relationship quality, but rather a tool to identify areas for meaningful conversation.

Score Comparison

The scores below show how each of you responded to the assessment. Your individual percentages represent how closely your responses align with certain expectations of marriage. The "Difference" column shows the gap between your scores—smaller differences mean you're more aligned in that area, while larger differences indicate topics you may want to discuss more deeply.

| Section | Michael's Score | Sophia's Score | Difference |
|--------------------|-----------------|----------------|------------|
| Your Foundation | 84% | 64% | 20% |
| Your Faith Life | 90% | 67% | 23% |
| Your Marriage Life | 85% | 70% | 15% |
| Overall | 85% | 68% | 17% |
