

# The 100 Marriage Assessment - Series 1

## Couple Discussion Guide

**Michael Johnson & Sarah Williams**

Completed on 4/23/2025

Thank you for completing The 100 Marriage Assessment - Series 1 as a couple. This discussion guide provides insights into your perspectives on marriage and highlights areas where further conversation may strengthen your relationship.

### **Understanding Your Compatibility Score:**

Your compatibility score reflects the alignment of your perspectives across all assessment sections. A higher score indicates greater similarity in your views on key marriage dimensions, while a lower score highlights areas where your expectations differ. This is not a judgment of relationship quality, but rather a tool to identify areas for meaningful discussion.

## Understanding Your Scores

The scores below reflect how each of you answered the assessment, with your individual percentages showing your unique perspective in each section, based on the specific weight of your responses. These aren't "good" or "bad" scores—they're simply a mirror of your personal expectations and priorities. What matters most is the "Difference" column, which highlights how closely your responses and expectations align in each section and overall. Why does this matter? We believe that the more aligned your expectations are, the stronger foundation you'll build for a thriving, healthy marriage.

Section	Michael's Score	Sarah's Score	Difference
Your Faith Life	85%	65%	20%
Your Health and Wellness	70%	85%	15%
