

The 100 Marriage Assessment - Series 1

Couple Discussion Guide

Lawrence Adjah & Sarah Williams

Completed on 4/23/2025

Thank you for completing The 100 Marriage Assessment - Series 1. This discussion guide provides insights into your perspectives on marriage and where further conversation may strengthen your relationship.

Understanding Your Compatibility Score:

Your compatibility score reflects the alignment of your perspectives across the assessment sections. A higher score indicates greater similarity in your views on key dimensions, while a lower score highlights areas where your experiences differ. This is not a judgment of relationship quality, but rather a tool to identify areas for discussion.

Score Comparison

The scores below show how each of you responded to the assessment. Your individual percentages represent how closely your responses align with certain expectations of marriage. The "Difference" column shows the gap between your scores—smaller differences mean you're more aligned in that area, while larger differences indicate topics you may want to discuss more deeply.

Section	Lawrence's Score	Sarah's Score	Difference
Your Foundation	89%	75%	14%
Your Faith Life	86%	76%	10%
Your Marriage Life	88%	70%	18%
Overall	88%	73%	15%
